

# Our trip to the Jurassic vets

The children really enjoyed their trip down to Jurassic vets in Colyton. We got to look around the vets and saw where all the animals were looked after and where vets did the x-rays and surgeries. We got to look at some x-rays and see if we could guess what animals they were.

On our trip to the vets, we learnt....

- The dogs and cats have different rooms, so the cats aren't scared because of the dogs
- Like a doctor a vet uses a stethoscope to listen to animal's hearts
- Sometimes animals need medicine to make them feel better
