Special Educational Needs

Colyton Caterpillars Early Education

We can refer children for ELIM screening

At 3 years old, if needed, we may refer children for support from nursery plus.

We can ask your local health visitor to support you.

We can refer children to the Family Hub for support

We can refer children to the Speech and Language therapy service, and their drop in session.

We can ask our Early Years Advice line meeting to come and observe your child to give us advice to support your child's needs, and signpost.

Special Educational Needs isn't about fixing children, it is about removing barriers, building on strengths and creating environments where every child is seen, heard and supported.

We will provide support for children identified and a plan will be made.
We will be available at all times for parents/carers to come and chat about their concerns, providing the best outcomes is a joint process.
We can identify children that need extra support and if children have more complex needs, we can apply for inclusion funding, or an Educational Health Care Plan that will support them through their education.
